RAINBOW SUE

A representation of the search for oneself.
This time, we go on a journey to discover the love
we have for the things we encounter on a daily basis,
including showing yourself love.

This character represents Phannapast artists in her thoughts, moments and events. The rainbow sue has big, round eyes that constantly look into her mind with mod-coloured curl style, that adapts to surroundings.

In the journey though our mind, we are like the vast galaxy. Sometimes, it's bright and hot when we're close to the Sun. Sometimes it's glowing and dreamy, when looking at the moon. Sometimes, it's so bitter in passing through a black hole that gravitates so easily. Perhaps, we will have a chance of seeing the new and unexpected constellations, along with finding companions that will help you explore Rainbow Sue's identity. You might find answers or maybe even more questions...

But that's life!
